Those who would like to show their support may **mark an envelope with "Kona Church Fire."**

## Counsels on Health – EGW

Great light has been shining upon us, but how little of this light we reflect to the world? Heavenly angels are waiting for human beings to co-operate with them in the practical carrying out of the principles of truth. It is through the agency of our sanitariums and kindred enterprises that much of this work is to be done. These institutions are to be God's memorials, where His healing power can reach all classes, high and low, rich and poor. Every dollar invested in them for Christ's sake will bring blessings both to the giver and to suffering humanity.

Medical missionary work is the right hand of the gospel. It is necessary to the advancement of the cause of God. As through it men and women are led to see the importance of right habits of living, the saving power of the truth will be made known. Every city is to be entered by workers trained to do medical missionary work. As the right hand of the third angel's message, God's methods of treating disease will open doors for the entrance of present truth. Health literature must be circulated in many lands. Our physicians in Europe and other countries should awake to the necessity of having health works prepared by men who are on the ground and who can meet the people where they are with the most essential instruction.
