Counsels on Health – EGW

Seventh-Day Adventists are handling momentous truths. More than forty years ago the Lord gave us special light on health reform, but how are we walking in that light? How many have refused to live in harmony with the counsels of God! As a people, we should make advancement proportionate to the light received. It is our duty to understand and respect the principles of health reform. On the subject of temperance we should be in advance of all other people; and yet there are among us well-instructed members of the church, and even ministers of the gospel, who have little respect for the light that God has given upon this subject. They eat as they please and work as they please.

Let those who are teachers and leaders in our cause take their stand firmly on Bible ground in regard to health reform and give a straight testimony to those who believe we are living in the last days of this earth's history. A line of distinction must be drawn between those who serve God and those who serve themselves.

I have been shown that the principles that were given us in the early days of the message are as important and should be regarded just as conscientiously today as they were then. There are some who have never followed the light given on the question of diet. It is now time to take the light from under the bushel and let it shine forth in clear, bright rays.
